CAVIAR FROM SMÅLAND

Sturgeon from Strömsnäsbruk just outside Växjö, Småland. Produced by Artic Roe of Scandinavia using the "milk method". The method implies that the caviar is extracted from the female fish without it being slaughtered. During a whole lifetime the female fish will produce 100% of its gross weight in sturgeon compared to 5%-10% with the traditional method.

Served with blini, red onion and lemon

25gr • 825
